

Professional Profile to Hire

Web Developer

Porto | Hybrid

BUILT CoLAB is looking for an experienced and committed **Full Stack Web Developer** who is passionate about establishing cutting edge and value adding technologies in today's industries.

Activities to be performed:

- Contribute to both backend and frontend feature development in different projects for the AEC sector.
- Continuously participate in application design to further enhance our systems and code base regarding reliability, maintainability, scalability, and efficiency.
- Design and manage the lifecycle of web APIs (REST) that support application functionality, including real-time features.
- Work in coordination with colleagues (Git, GitHub Flow, Code Review, Pair Programming), with high quality awareness and experienced with testing.

Initial Training Area and/or Similar Areas:

MSc in the field of Computer Science, Software Engineering or related fields.

Specific professional expertise relevant to the contracting area:

- Experience with JavaScript, HTML, CSS, including latest web innovations/standards such as Web Components. Knowledge about front-end frameworks (Vue.js, React, Svelte, or others) and CSS toolkits (Tailwind, Bootstrap, Tachyons, or others) is a plus.
- Knowledge about Continuous Integration solutions such as GitHub Actions or GitLab Pipelines, and basic knowledge of one containerization solutions such as Docker/LXC/Podman.
- Knowledge of, at least, one of the following backend development solutions: Flask (Python), FastAPI (Python), Express (Node.js), hapi (Node.JS), Laravel (PHP).
- Basic knowledge about SQL databases (SQLite, Postgres, MariaDB, or other). Knowledge about specific database technologies such as No-SQL (MongoDB) and Timeseries Databases (InfluxDB) is a plus.
- Exploratory experience with 3D web technologies such as WebGL, WebGPU, is a plus.

Other requirements:

- Show ownership for your responsibilities and be accountable for your results.
- Have room to experiment and grow your skills in various areas.
- Fluency in Portuguese and English is mandatory.
- We value teamwork, continuous learning and diversity.

What we offer:

- We're a new platform in a well-established industry, bringing together a creative, agile, and diverse Team to disrupt and lead the industry through Innovation, solving traditional problems with new approaches.
- Possibility of hybrid office-remote working system; in the Porto office we have open spaces for team member interaction, informal meetings, and relaxation, as well as private areas for external and inter-office meetings.
- Attractive workplace with modern equipment within a dynamic company.

- Benefit from learning opportunities both internal and external alongside constant feedback from team leaders who support and advise you in every way.
- Gross annual salary - +/- 29000

The **application** must be sent to **info@builtcolab.pt**, **mentioning in the title of the email the profile to which you are applying** (ex.: Application to WebDeveloper).
